

MTS Pre-Pack Solutions

Efficiency For Your Predictable Recurring Prescriptions

Pre-Pack

Optimize Your Packaging Operation!

Pre-Pack is not limited to a 30 dose punch card.

Any Long Term Care pharmacy can benefit from pre-packaging bulk medication into their primary medication dispensing systems. MTS pre-pack automation facilitates the packaging of:

Standard Punch Cards

Unit Dose

Unit Dose Box

Control Cards

Select Seal Punch Cards

MTS Advantage

► *Designed and Manufactured at MTS*

The entire line of pre-pack automation is designed, manufactured and assembled by MTS. A state-of-the-art engineering department and machine shop have 25 years of experience with the medication packaging needs of Long Term Care (LTC) pharmacy. MTS continually develops better ways to automate, service and support the pre-pack process.

► *Service & Support*

With both an internal and external technical service MTS is able to support all of your pre-pack equipment needs. Warranty and service program options ensure that your equipment maintains optimal performance.

► *Installation*

An MTS sales or service team will personally install your pre-pack equipment and train your pharmacy staff.

► *Implementation*

Making sure your pharmacy has the tools to be as efficient as possible is the number one goal. As the leader in compliance packaging solutions for LTC pharmacy, MTS has over 2 decades of experience in packaging automation and will be a key resource for your future business.

MTS equipment is designed for ease of use and efficient operation:

- *Effective Training and Support*
- *Change Over Between Meds in Minutes*
- *Efficient Process Design for Maximum Productivity*
- *Reduction of Manual Filling Steps Saves Time and Money*

The Pre-Pack Process – Enhances accuracy, increases production and reduces labor.

Punch Card

**MAX.
Per Hour***

960

**Average
Per Shift****

**4000
approx.**

20 Times
Faster than filling
by hand.***

* Max Per Hour is one tech filling the same drug, without change over.
 ** Average Per Shift as experienced in a typical LTC pharmacy.
 One shift being 6.5 hours of work time, inclusive of multiple change overs.
 *** An average tech fills 25-37 punch cards by hand in one hour.

Options

Conveyor / Label Applicator

The MTS conveyor and label applicator will optimize your output by moving sealed product away from the operator and automatically applying a pre-pack label.

**Included with the MTS-500™ pre-pack system.
Optional for MTS-350™ and MTS-400™ pre-pack automation.**

Thermal Printer & MTS Unit Dose Software

High speed foil printing option from MTS. Used for packaging efficiency or when bar code printing is required. It automatically cuts the foil to size, ready for direct application to the unit dose blister. The printer can be used as a stand alone system or in conjunction with MTS automation.

Optional for the MTS-350™ Unit Dose and Select Seal™ pre-pack systems.

Your Complete Pre-Pack Solution.
